and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I have made some mistakes in the past as far as wireless service is concerned. Tracfone allows me to feel safe in any situation. I only use my phone to call in emergency situations or updating my loved ones on my progress or where-a-bouts during the day. Imposing the fee would seriously hinder my capabilities to do this. You would be punishing us low volume users for trying to feel safe in these uncertain and terroristic times.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Gary Peckham
